

Accreditation Virtual Event Series Summary:

Have you ever wondered how IEEE impacts Accreditation? Most people understand that certain institutions are “accredited”, but how does that happen? What are the contributions that IEEE volunteers make in bringing this to Engineering and Engineering Technology Programs across the globe?

Join us for an exciting series that delves into the behind-the-scenes experiences from current IEEE/ABET Program Evaluators, Global Accreditation Experts and the ABET connection. Segments feature IEEE Program Evaluators (PEVs) preparation process for a University visit, the volunteer life cycle of a PEV, how institutions understand the requirements for an ABET visit to accredit that institution’s programs. Speakers will share with you their expertise and experiences in the process required to become an IEEE ABET Engineering Accreditation Program Evaluator, and beyond.

Below are four events in the Accreditation series and may now be viewed ON DEMAND:

[Accreditation Series: How an IEEE Program Evaluator prepares for a University Visit](#)

[Accreditation Series: IEEE Progression Timeline of a Program Evaluator \(PEV\)](#)

[Accreditation Series: Best practices for preparing for an ABET visit](#)

[Accreditation Series: International Accreditation](#)
